

Scrolling Basic 8-18m²

We have developed many different designs of paper scrolling systems in sizes from less than 2m² up to 18m² (6x3 meters/ 48-Sheet).

We are the only manufacturer in the market who also offers a long-term experience on several sizes above 12m². Our 24/1 sheet units are in network cooperation in Austria and Hungary for almost two years, same as our 6x3meters (48-Sheet) units in the UK.

DISTEC offers the broadest range of scrolling sizes for all kinds of applications. Our units are designed to give maximum flexibility and practicability to the user to guarantee an efficient operation combined with a premium return of investment.

We strongly design our units to the so called „TCO-Philosophy“, the total cost of ownership, and our sales department can explain to you why our scrollers are an economical advantage for years of use.

There are some „standard“ sizes on the market but we are happy to assist you in any project, any design requirements or whatever your need is. We can realize any quantity.

Of course, we also offer in-house design.

All our scrollers, as well as all other products, are based on DISTEC's after-sales concept which assures that our commitment to our clients does not stop with delivery.

Scrolling Basic 8-18m²

Chassis

- ▶ basic frame aluminium, powder coated in RAL
- ▶ horizontal lower bar (not wall unit) galvanized steel, covered with aluminium sheet, powder coated in RAL
- ▶ front door aluminium extrusion powder coated in RAL opens toward front, about 25 degrees opening angel
- ▶ invisible hinge system, secured
- ▶ laminated security glass, easy change by gasket & clip system
- ▶ passe partout powder coated in RAL
- ▶ wall unit: back sheet trapez, powder coated in RAL
- ▶ gas pressure dampers
- ▶ central locking system
- ▶ ventilation system
- ▶ pole construction galvanized steel, covered with aluminium sheet, powder coated in RAL

Scrolling system

- ▶ 2-motor system (0,25 KW each, 4x3, 6x3 meter 0,37KW)), operated by inverters
- ▶ two fixed aluminium rolls with t-nut for upper and lower transport sheet one upper (long) and one lower (short) transport sheet, one side with keder (to fit in t-nut of rolls) and one side with zipper)
- ▶ scroller system for up to 5 images
- ▶ each scroller side operated by one inductive sensor
- ▶ all mechanical parts protected against oxidation
- ▶ all parts easy to change
- ▶ poster with low distance to front glass
- ▶ operation temperatures from -25 to plus 50 degrees Celsius outside temperature

Illumination

- ▶ shadow free illumination, T8 fluorescent lamps
- ▶ electronic ballasts

Motion Control

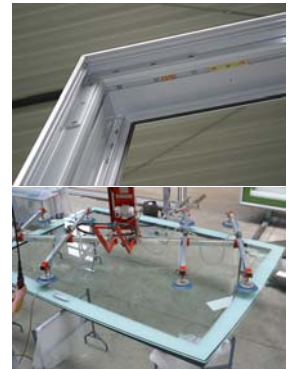

- ▶ integrated in scrolling box,
- ▶ image changing time +/- 3 seconds
- ▶ image showing times individually adjustable
- ▶ operated by handset ,access via plug-in outside box
- ▶ modem and synchronizing as option, can be equipped later

Wiring of whole electric circuit in reference to international standards CE, VDE etc.

Foundation (comes with monopole option)

- ▶ referring to static calculation which will be delivered with unit

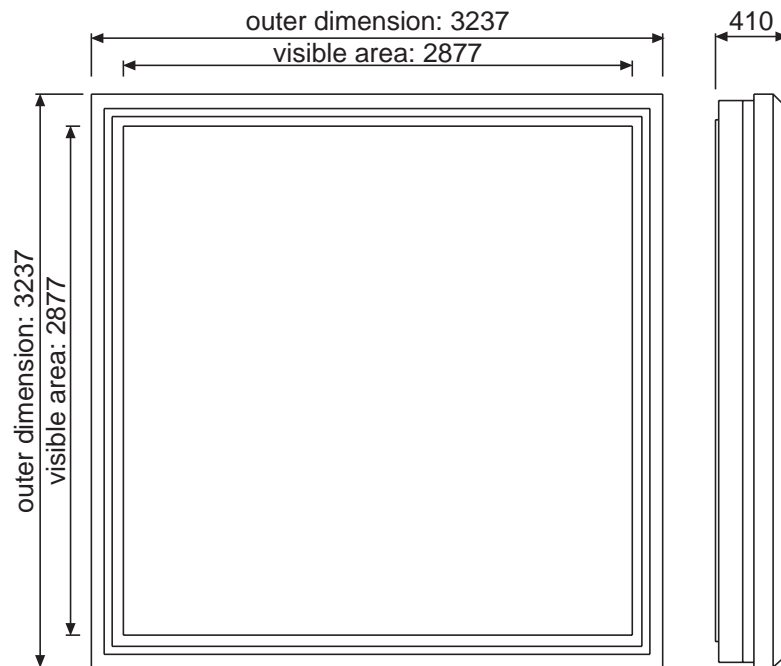

Handset optional, one handset can operate multiple units

 Scrolling Basic 8-1 8m²

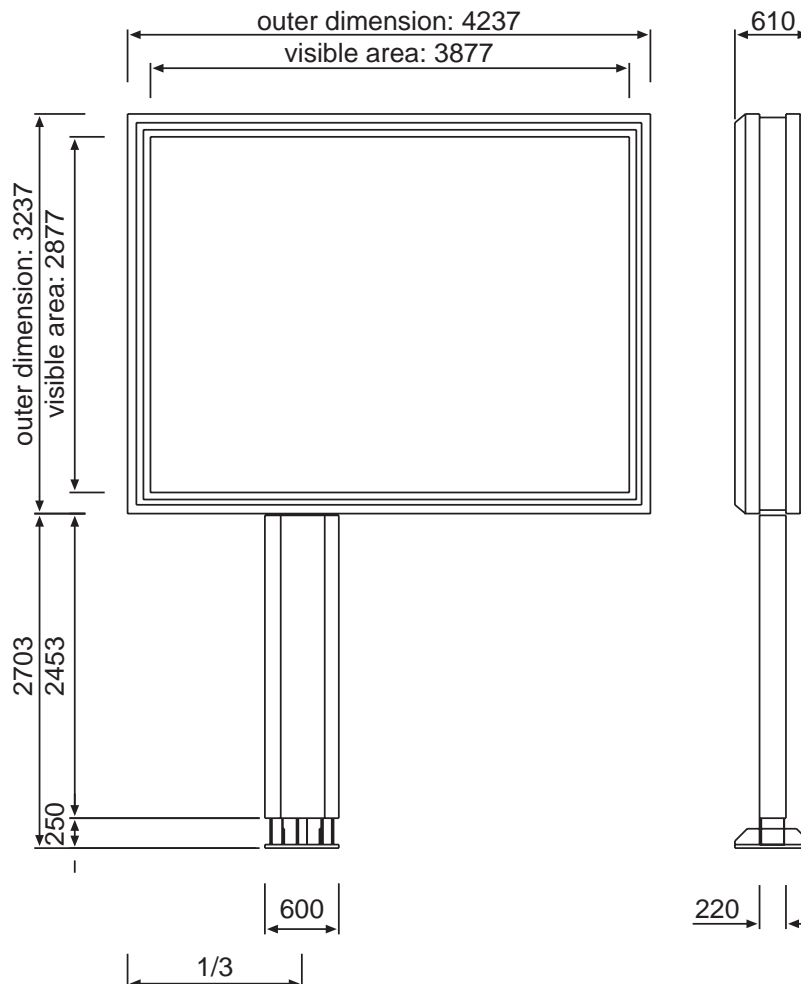

Basic 3X3m wall mounting

poster dimensions: 3000 x 3000

Basic 4X3m monopole

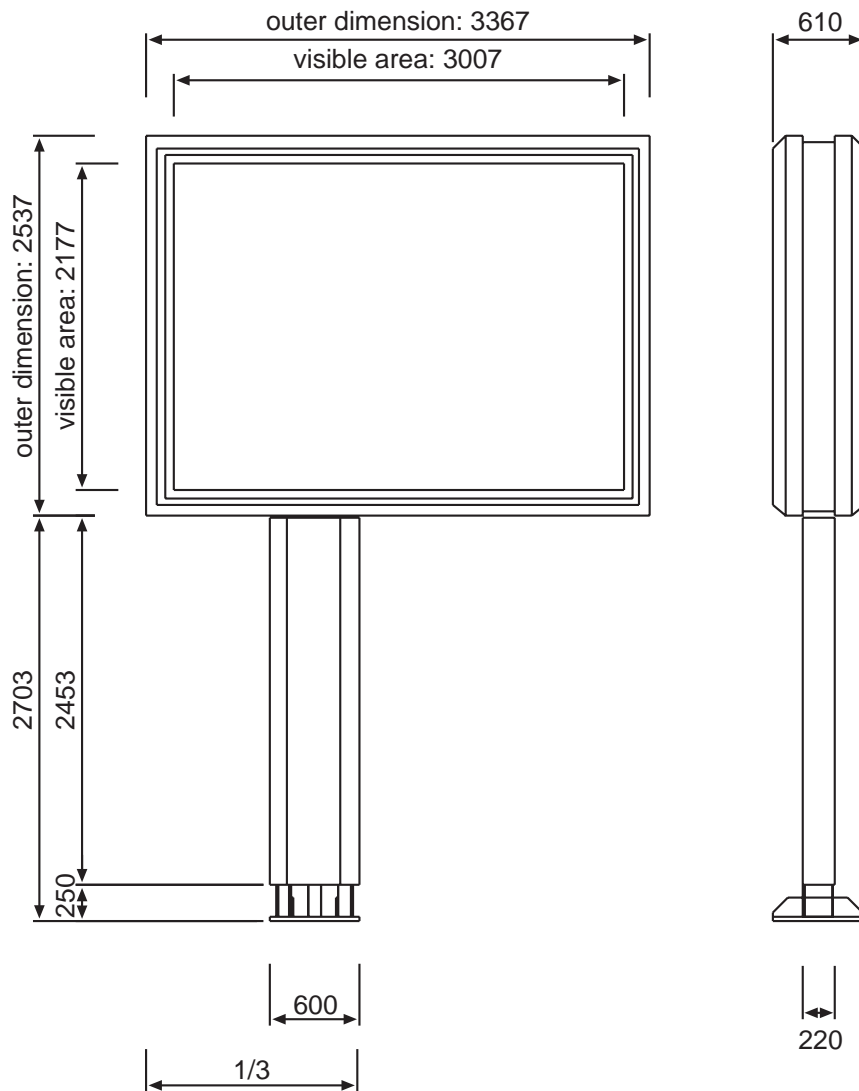

poster dimensions: 4000 x 3000

 Scrolling Basic 8-1 8m²

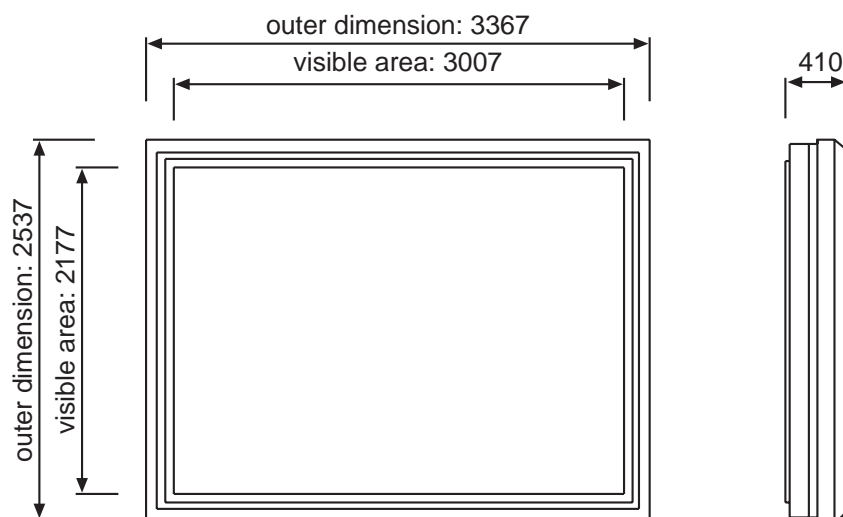

Basic 8m² monopole

poster dimensions: 3130 x 2300

Basic 8m² wall mounting

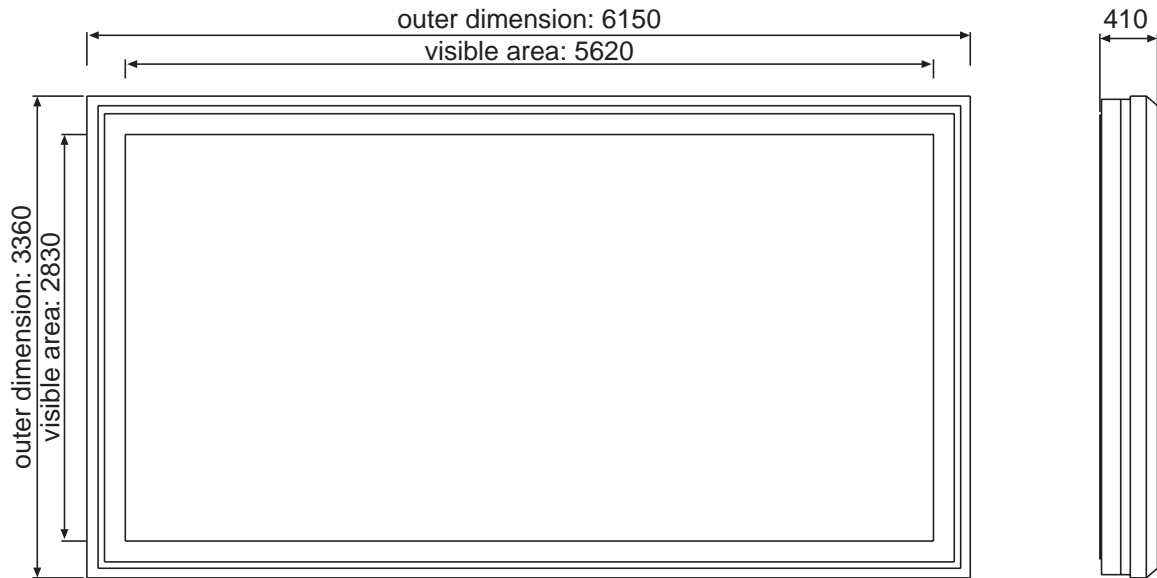

poster dimensions: 3130 x 2300

 Scrolling Basic 8-18m²

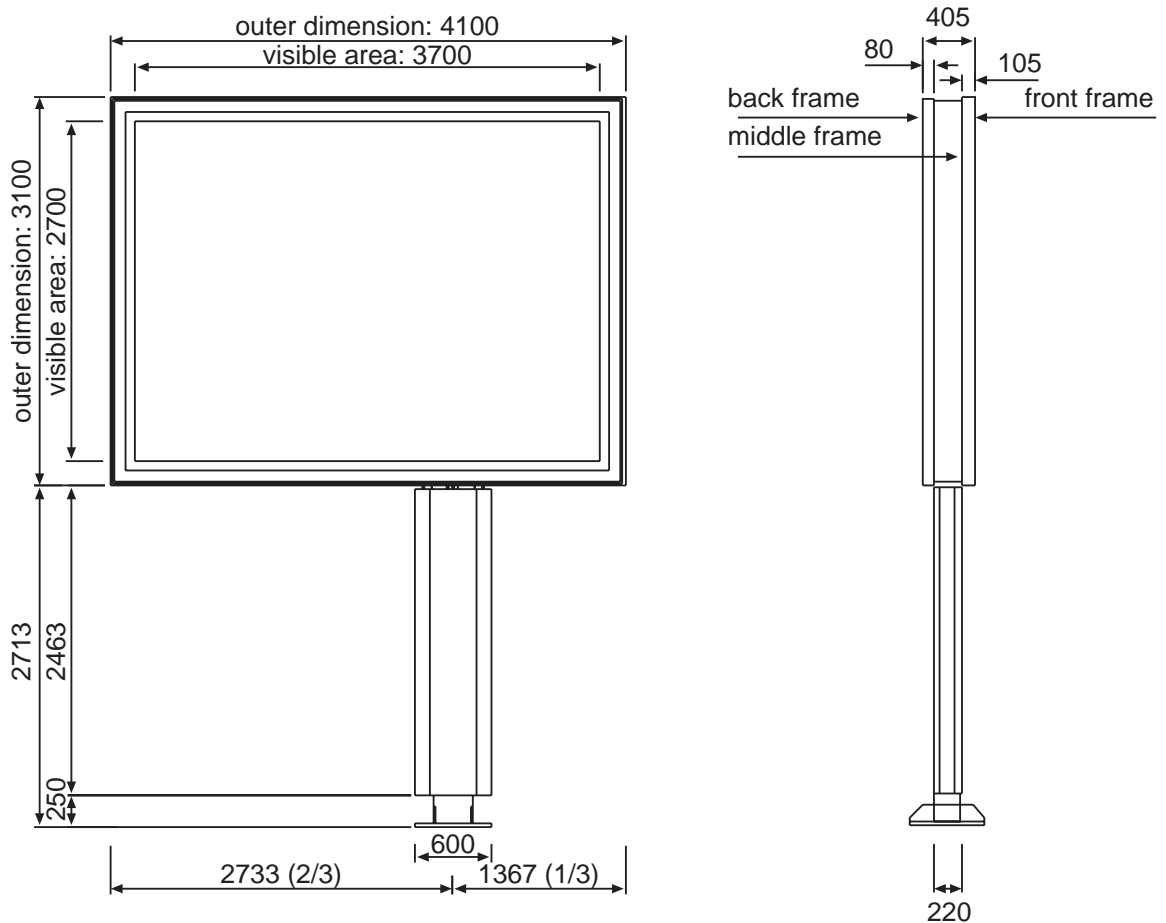

Basic 6X3m Glazed unit

poster dimensions: 5800 x 3000

Basic 10m² monopole - one side

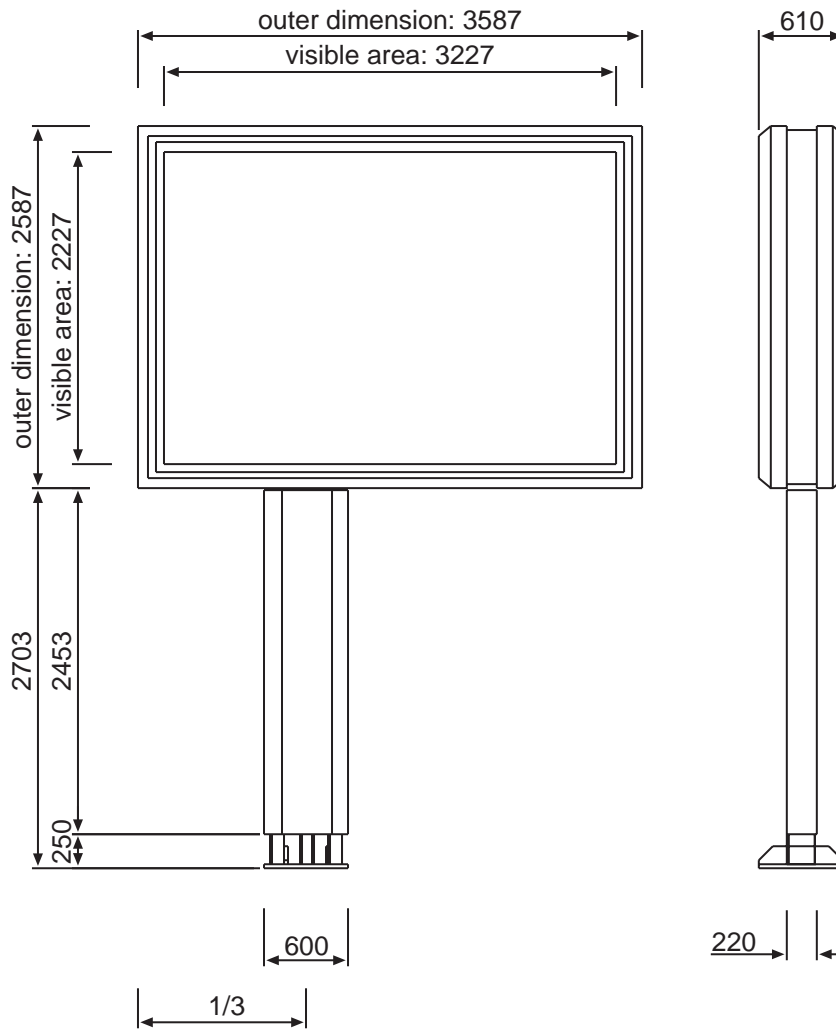

poster dimensions: 3800 x 2800

 Scrolling Basic 8-18m²

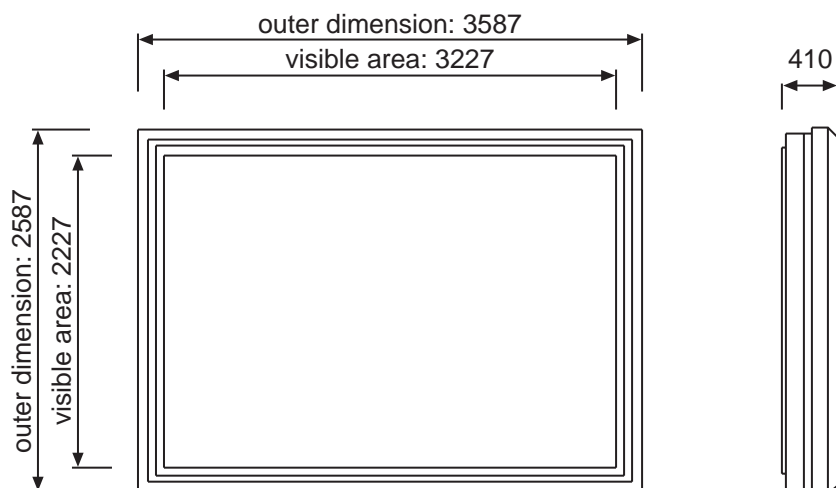

Basic 16/1 monopole

poster dimensions: 3350 x 2350

Basic 16/1 wall mounting

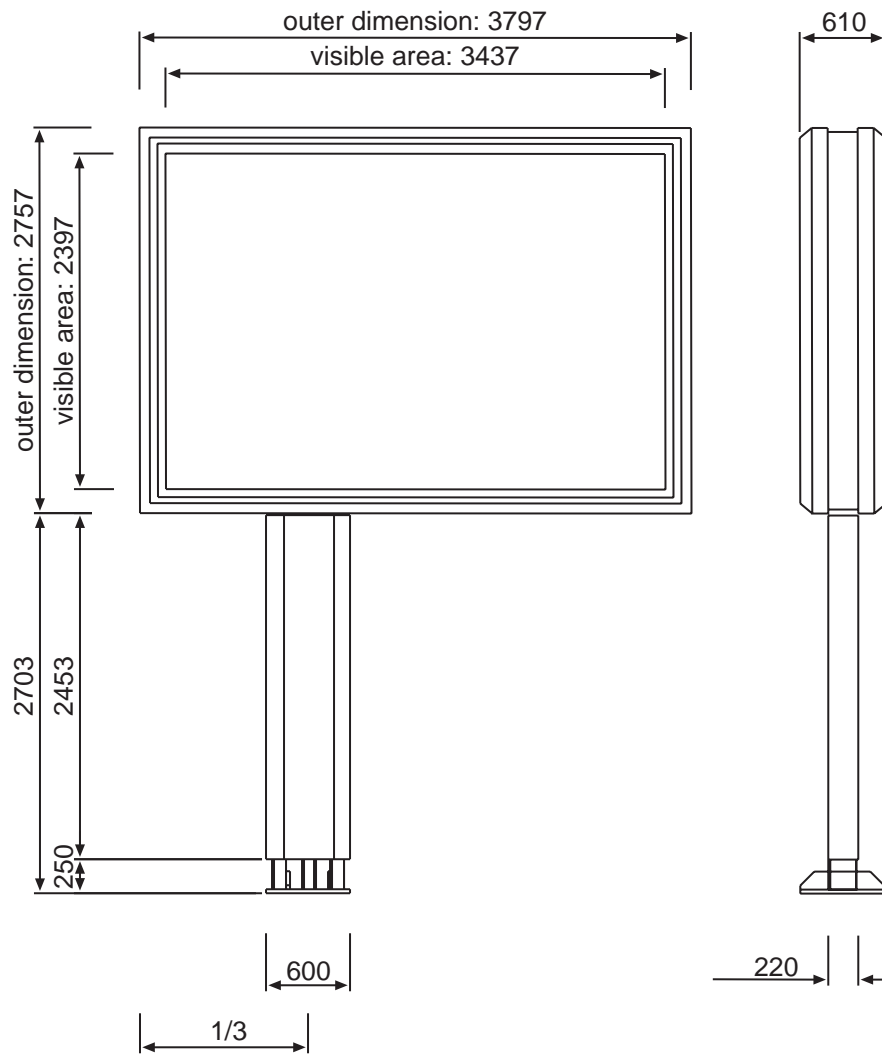

poster dimensions: 3350 x 2350

 Scrolling Basic 8-18m²

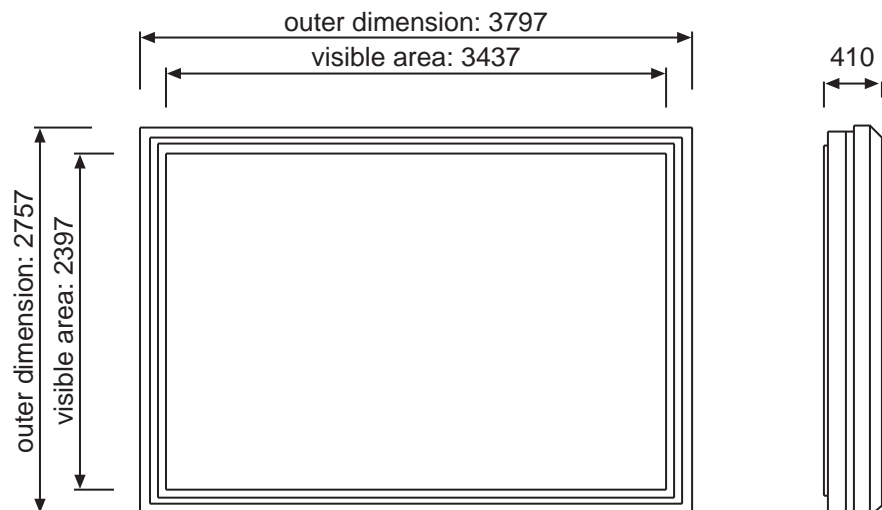

Basic 18/1 monopole

poster dimensions: 3560 x 2520

Basic 18/1 wall mounting

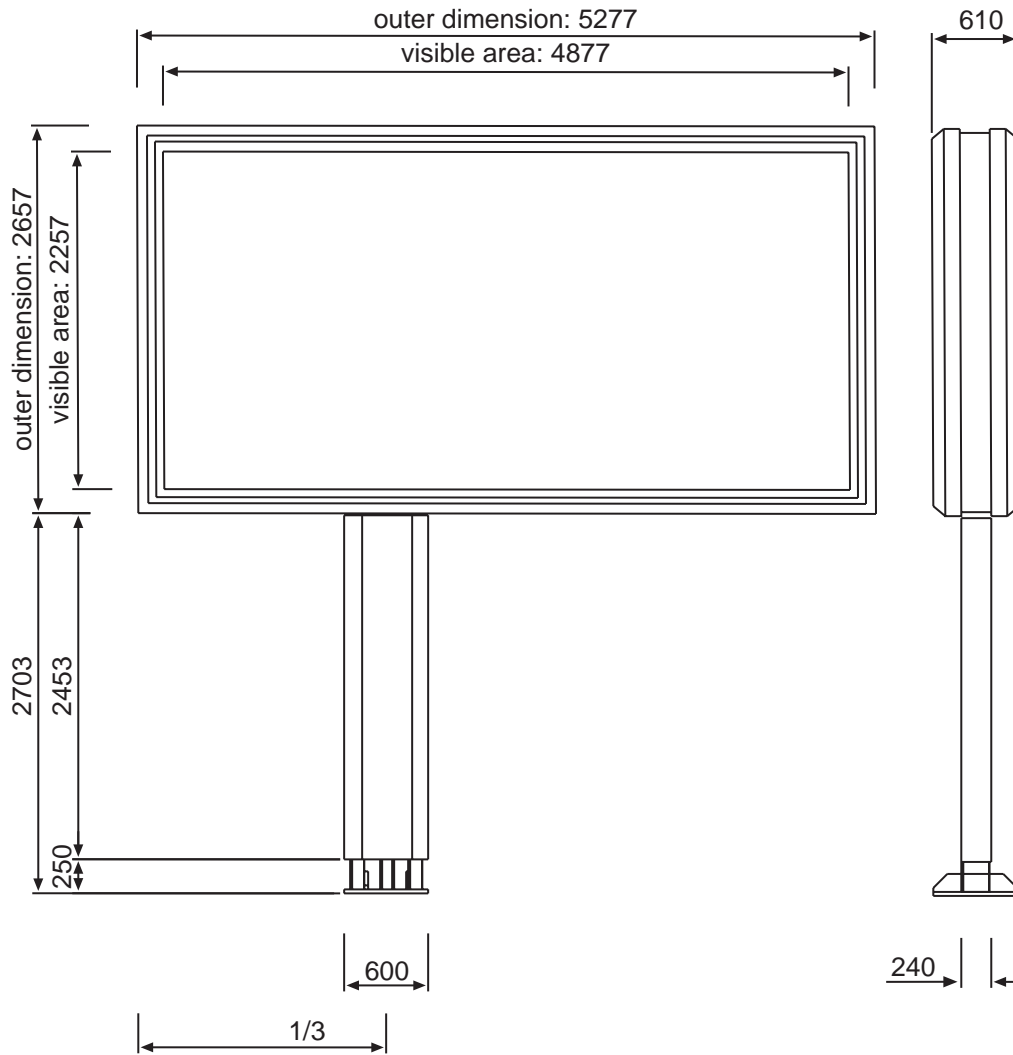

poster dimensions: 3560 x 2520

 Scrolling Basic 8-1 8m²

Basic 24/1 monopole

poster dimensions: 5040 x 2380

Basic 24/1 wall mounting

poster dimensions: 5040 x 2380
